

2.2 Pacifiers / Pacifiers with Cowls

Pacifiers must be comprised of a strong mesh that will resume normal shape after compression and the mesh must be black in colour.

Pacifiers with cowls must conform to the requirements applicable to blinkers which the cup / cowl must be not less than half cup size.

Pacifiers must be worn under the bridle and secured by velcro straps, buckles or interlocking clips.

Pacifiers with cowls shall not be worn in a race unless the horse has passed a barrier trial or stalls test wearing the relevant piece of equipment to the satisfaction of the Stewards or has raced in that equipment overseas prior to being imported into Hong Kong. It is not required for horses to barrier trial again if the trainer wishes to interchange pacifiers with cowls with blinkers or visors.

A shadow roll, sheepskin cheek pieces and a sheepskin browband shall not be approved to be worn in conjunction with pacifiers.
